

US Benefits Open Enrollment

It's that time of year again...ANNUAL BENEFITS OPEN ENROLLMENT. It's time to learn about, review, and update your benefit elections during the Oracle US Benefits open enrollment period:

October 21 through November 8

So, what's new this year?

Contributions

In 2025, there will be an increase to the UnitedHealthcare plans and the Kaiser plans. There are no changes to the contributions for the dental and vision plans except for the change to biweekly pay periods.

As a reminder, you received an email announcement from Oracle Payroll in September that outlined a change in payroll frequency from a semimonthly pay schedule to a biweekly pay schedule in 2025. Please refer to the announcement or [visit the Oracle US Payroll website for more information](#).

[See the 2025 price sheet with biweekly contributions.](#)

UnitedHealthcare—new prescription refill option: the “Retail 90” program

Starting in 2025, the new Retail 90 program provides you flexibility when getting maintenance medication. You may fill a 90-day supply of medication that you use regularly either by home delivery via OptumRx or any retail pharmacy in the network. The Retail 90 program gives you the flexibility to choose. For additional information on how the program works including transferring prescriptions and finding participating retail pharmacies, [see these FAQs](#).
